

Penetrating Oil **PENLUBE E** > **Formula G**

>>> **GUARDEX's PENLUBE E** is manufactured to assist operators in the petroleum industry or anyone requiring a superior penetrating oil. Designed to penetrate asphalt, bitumen, rust and corrosion and provide a lubricating film for removal of nuts and bolts from equipment, wellheads, flanges, pipe fittings and other threaded locations. Save money, time and replacement parts!

PENLUBE E succeeds where other oils fail. Rusted, corroded or seized equipment are no problem for this innovative oil. It is safe for use on all metals including aluminum, tungsten carbide and stainless steel. Excellent for salt water, sulphur and chemical corrosion.

AVAILABLE IN:

- > 1 litre spray bottles
- > 4 litre jugs
- > 20 litre pails
- > 205 litre drums

DIRECTIONS FOR USE: in most situations, spray the thread with a generous amount of **PENLUBE E**. Wait 10-15 minutes for product to fully penetrate and undo thread as usual. In severe cases, a second or third application may be necessary.

FOR RUST, CORRODED OR SEIZED EQUIPMENT: spray with **PENLUBE E** and brush equipment with a wire or brass brush to remove rust and corrosion.

FOR SEIZED EQUIPMENT: apply **PENLUBE E** over a period of days. Move gently back and forward to release seized equipment.
