

Octane Fuel Booster **FORMULA 112**

>>> **GUARDEX's FORMULA 112** is a complex blend of hydrocarbons specifically formulated to work in conjunction with today's fuels thus assuring maximum fuel economy and engine performance. It contains a power enhancing formula for more horsepower and increased fuel efficiency.

FORMULA 112 helps prevent internal corrosion in the tank and fuel system by stabilizing fuel so that it will not build up with varnish, gum and sludge.

AVAILABLE IN:

- > 946 ml bottles
- > 4 litre jugs
- > 20 litre pails
- > 205 litre drums

ADVANTAGES:

- > reduces fuel consumption by 5-7% — pays for itself!
- > for use with all grades of leaded and unleaded gasolines
- > stops knocking, pinging and overheating
- > increases horsepower, torque and octane rating
- > smoother running due to superior lubrication
- > cleans upper engine components
- > cleans carburetor and injectors
- > cleans and lubricates injector pintles
- > contains no iron oxides
- > safe for use in cars with catalytic converters

DIRECTIONS FOR USE: can be used in all gasoline powered engines including ATV's, snowmobiles and motorcycles. Safe for vehicles equipped with turbo or supercharged engines. Use 30 ml per 50 litres of fuel. Pour directly into fuel tank after filling. Higher concentrations may be required for high performance engines. A 946 ml container will treat approximately 1700 litres (370 US gallons). See SDS for more information.
