

## Rod & Packing Lubricant **STUFFING BOX OIL**

>>> **GUARDEX's STUFFING BOX OIL** is our exclusive rod and packing lubricant for both centrifugal and reciprocation action pumps and other similar equipment.

Superior to other oils, our **STUFFING BOX OIL** has anti-corrosion agents that protect pumps against environmental corrosion such as H<sub>2</sub>S or salt water, while preventing crystallization, wax and varnish buildup. This extends the life of your equipment and may help you reduce the number of maintenance cycles necessary.

Using traditional methods, our lubricant drastically reduces the drip rate down to 9–12 drips/minute. Not only will you use less your cleanup time has been virtually eliminated.

Excellent for use in boats, steam engines, high pressure gas wells, and anywhere a stuffing box is required.

BOAT

STEAM ENGINE

OIL &amp; GAS
