

Biodegradable Industrial Cleaner **CISOL BD-501**

>>> **GUARDEX's CISOL BD-501** is a biodegradable, organic solvent blended with surfactants and manufactured with the environment in mind.

It was designed as a superior cleaning agent which is miscible with water. It contains no phosphates and is non-corrosive, non-caustic and non-acidic.

Highly effective in removing even the toughest oil and grease and is more powerful than most detergents used for similar applications.

OIL & GAS

MECHANICAL

MINING

PAVING

AVAILABLE IN:

- > 1 litre spray bottles
- > 4 litre jugs
- > 20 litre pails
- > 205 litre drums

DIRECTIONS FOR USE: can be used full strength or mildly diluted in most situations. For cleaning baked on grease and oil from tools and equipment, spray a small amount and wipe clean. For tougher build up, a second application may be required. Can be sprayed onto wellheads and pumping units to remove grease, wax and oil. Concentrated application is suggested. Soak bitumen laden equipment in **CISOL BD-501** full concentrate and rinse with water. It can be separated from water for limited recovery by settling. Use in high pressure washers or steam units to remove wax, sludge, bitumen and oil from vessels and storage tanks. Add to process vessels and circulate through (*clean up with fresh water prior to refilling process fluids*).

CAUTION: **CISOL BD-501** may affect certain rubbers, plastics and paints and should not be used on fresh paint. Testing on these materials is recommended. Testing conducted on Buna, Viton, Neoprene and tire rubbers has not proven harmful. Should be washed off painted equipment within 30 minutes to avoid potential damage. See SDS for more information.
