

GUARDEX LUBES INC. PRESENTS

FORMULA

112

OCTANE BOOSTER

General Information

Guardex Formula 112 Octane Booster is a complex blend of hydrocarbons specifically formulated to work in conjunction with today's fuels thus assuring maximum fuel economy and engine performance. Guardex Formula 112 contains a power enhancing formula for more horsepower and increased fuel efficiency. Guardex Formula 112 helps prevent internal corrosion in the tank and fuel system by STABILIZING fuel so that it will not build up with varnish, gum, and sludge.

Recommended Dosage:

- ❖ Guardex Formula 112 Octane Booster is recommended for use in all gasoline powered engines, including ATV's, snowmobiles & motor cycles and is safe for use in vehicles equipped with turbo or supercharged engines.
- ❖ Use 30 ml. per 50 litres of fuel. Higher concentrations may be required for high performance engines.
- ❖ A 473 ml. container treats approximately 185 gallons or 850 litres. Also available in 1 litre, 4 litre and 20 litre containers.

Advantages:

- ❖ Increases PERFORMANCE & HORSEPOWER.
- ❖ Prevents varnish, gum, sludge and corrosion by stabilizing fuel.
- ❖ Reduces fuel consumption by 5-7%.
- ❖ May be used with all grades of leaded and unleaded gasolines.
- ❖ Stops knocking, pinging and overheating caused by low octane gasoline.
- ❖ Increases horsepower, torque, and octane rating.
- ❖ Smoother running due to superior lubrication.
- ❖ Improves fuel economy.
- ❖ Cleans upper engine components.
- ❖ Cleans carburetor and injectors.
- ❖ Cleans & lubricates pintles in injectors.
- ❖ Contains no iron oxides.
- ❖ Safe for use in cars with catalytic converters.
